INTRODUCTION

In 1946 the College Governing Board granted the necessary permission for the Men's Athletic Association to organize, as an independent group, under the College Governing Board. This organization is composed of all male students and male faculty members of the Cortland College Association. As stated in the constitution, the purpose of the Men's Athletic Association is "to organize and conduct a program of men's athletics for the purpose of providing for the interests and needs of the students of Cortland State Teachers College.

The money necessary for the operation of the intercollegiate athletic program comes from student fees. Every Spring, an athletic budget is submitted to the House of Delegates for the necessary approval.

The governing body of the Men's Athletic Association is the Executive Committee consisting of nine members of which seven are students and two are faculty members. Annually, an election is held to select new student members for this committee. One faculty member is designated by the President of the College and the second faculty member is selected by the Executive Committee. The basic duties of the Executive Committee are:

- 1—Providing leadership in athletics
- 2—Approving recommendations for athletic awards
- 3—Conducting the annual athletic awards banquet
- 4—Approving recommendations for managers, assistant managers, scrubs, student coaches, student publicity director and student director of athletics
- 5—Approving the annual budget requests
- 6—Recommending athletic policies and procedures.

INTERCOLLEGIATE SPORTS

At the present time, the Men's Athletic Association sponsors twelve varsity sports. They are:

Fall	Winter	Spring
Football	Basketball	Baseball
Soccer	Wrestling	Track
Cross Country	Swimming	Lacrosse
	Gymnastics	Golf
		Tennis

Lacrosse
Junior Varsity teams are provided in football, soccer, basketball, wrestling and baseball. According to conference regulations, Cortland is permitted to use freshmen on all varsity teams as long as the male student enrollment is below 750.

The College is a member of the National Collegiate Athletic Association, the Eastern Collegiate Athletic Conference and the New York State Intercollegiate Athletic Conference.

Candidates for all teams are required to have the approval of the college physician before checking out equipment and engaging in active participation.

INTRAMURAL SPORTS

For those men who are not members of teams engaged in intercollegiate competition, the Men's Athletic Association has arranged a program of intramural sports. This program is conducted by a student director of intramurals under the supervision of a faculty member. The intramural sports program consists of:

Basketball	Swimming
Wrestling	Bowling
Softball	Volleyball
Golf	Tennis

Other sports are added to the program when sufficient interest is indicated by the male students and faculty.

POLICY ON ABSENCES FROM CLASSES BECAUSE OF ATHLETIC TEAM TRIPS

All students engaged as participants on athletic teams at Cortland State Teachers College are required on occasions to be absent from the campus due to intercollegiate athletic contests scheduled with teams representing other colleges. It seems to be pertinent to call the attention of these students to some of the facts regarding these absences from classes.

First of all, faculty and administration consider extra-curricular activities and field trips as valuable and important in the educational process and for the development of more efficient teachers. However, a student must be judicious in the budgeting of his time and effort and use discretion in electing the number of activities for extra-class participation. This is a matter for each individual student to decide and the decision should be based on sound judgement. Members of the faculty are pleased to cooperate with cooperative students when students, because of official college trips, are absent from classes, but they are not prone to approve the practice of cutting classes for no good reason.

There is no cut system at Cortland and consequently no such thing as an excused absence. A student's absence from class may be explained, but in the final analysis it cannot be excused. This means that a student is responsible for all of the material presented, assignments made, and discussions that take place in a class from which he has been absent. It also means that if his absence from the class will jeopardize his standing to the extent that he does not maintain a level of achievement in that class required by the instructor, then he should not be absent from it.

Cortland State Teachers College is a member of the Eastern College Athletic Conference which requires that, "no student shall represent his institution in inter-collegiate athletic competition unless he is in good scholastic standing as determined by the faculty of that institution." It is an accepted fact that marks of "D" and "E" at Cortland are not satisfactory and if a student has, because of

his inability or lack of application, accumulated an excessive number of these marks, it then becomes evident that he has jeopardized his scholastic standing and failed to maintain his eligibility for athletic competition. It is the duty of the Dean of the College and the Director of Education to evaluate the academic status of students and if after this evaluation has been made it becomes necessary to place a student on probation he is automatically ineligible for participation on our athletic teams.

Therefore, it is evident that the responsibility for maintaining good scholastic standing and eligibility for intercollegiate competition rests entirely with the individual student. It is his responsibility to remind the instructor of the reason for his absence from class, preferably before the absence is taken, and to make sure that he has knowledge of the material, assignments, and discussion offered in the class during his absence. An instructor will not discriminate against a student because he is absent from a class for the purpose of participating in an intercollegiate athletic contest. On the other hand, if a student, because of his own negligence and lack of interest, does not appear for regularly scheduled classes, the instructor certainly has no other alternative but to assume that the student has little if any interest in becoming better acquainted with the content and method of the subject. This all adds up to mean that a student who desires to engage in intercollegiate athletic competition should make every effort to attend all classes in which he is registered providing team trips do not make his absence necessary.

A careful check reveals that it is not the absences from classes due to athletic team trips that causes most of the students' difficulties but rather to those absences taken in addition to those caused by team trips which quite frequently add up to an excessive number in the various courses in which students are enrolled. Consequently, all students who represent the college on intercollegiate athletic teams must realize that this is a privilege and not a service and that in the final analysis, whether or not they are permitted to continue their status as students here, will depend upon the degree of academic achievement

demonstrated while they are here. Therefore, all students in this category are urged to miss only those classes which they must miss if they participate on athletic teams.

At least 48 hours prior to the time of departure of any team on an athletic trip, a complete list of full names of individuals making the trip shall be submitted by the coach to the office of the Director of Athletics, from which three additional copies shall be made. One shall be posted on the faculty bulletin board, one furnished the Dean of the College and one to the Director of Education.

ELIGIBILITY RULES AND REGULATIONS

Cortland State Teachers College is a member of the Eastern College Athletic Conference, the National Collegiate Athletic Association and the New York State Intercollegiate Conference.

Our eligibility rules affecting all men in this college must conform to the rules set up by these organizations.

Amateurism (Article III ECAC)

A student competing in intercollegiate athletics shall be an amateur in good standing. A student loses his eligibility as an amateur and shall forfeit his right to represent any member institution thereafter in intercollegiate competition by the commission of any of the following acts:

1. Receiving payment or accepting a gift or loan for playing, coaching, or teaching in any sport.
2. Receiving payment or accepting a gift or loan for officiating in any athletic contest. (This rule shall not be construed to apply to a student who, as a part time employee in a member institution, is assigned to officiating in intramural contests as a part of his regular work for which he is paid at the usual rate for student employees in that institution).
3. Signing a contract with a professional team in any sport, regardless of any subsequent cancellation or revo-

cation, absence of payment, or lack of training with the team.

4. Receiving expenses from a professional team.
5. Practicing or trying out with a professional team even though he receives no expenses or payment therefor.
6. Playing in any sport with or as a member of a professional team.
7. Being paid to write a sports article in a periodical other than one sponsored or published by his own institution.
8. Receiving compensation for a radio or television appearance.
9. Accepting an award which does not meet reasonable specifications as to value, type and source.
10. Participating in any athletic competition under an assumed name, or otherwise with intent to deceive.
11. Permitting the use of his name or picture in commercial advertising.

NOTE: The Eligibility Committee may suspend the eligibility of an athlete for a definitely prescribed period, instead of depriving him permanently of his eligibility, if he has committed any of the foregoing acts except that described in Item No. 3 above, and provided in its judgment the circumstances warrant such less drastic action. Such suspension may apply to all sports or only to the sport in which the infraction occurs, as the Eligibility Committee may decide.

Non-Collegiate Competition (Article VII, ECAC)

Once a student has represented an Eastern College Athletic Conference member college he then becomes subject to the following regulations:

Section 1. For any outside competition, tournament play, exhibition, or other activity in which athletic ability is a factor, in any sport in which a student is not representing a member institution, he must obtain, in advance, permission from the appropriate athletic authority at said institution or forfeit his eligibility for further intercollegiate competition in any or all sports.

Section 2. Permission for such outside competition or athletic activity may be given at the discretion of the institution's appropriate athletic authority:

- (a) Unless a violation of the amateur rule is involved;
- (b) Unless the competition takes place during the season of a sport in which the student is a squad member (vacation periods excepted);
NOTE: Eligibility forfeited under (b) may be restored for subsequent years at the discretion of the institution.
- (c) Unless the competition is on any team on which one or more players is a professional;
- (d) Unless the competition is in basketball (pre-season or summer);

NOTE: 1: This pertains only to students who are representing or who have represented any E.C.A.C. member institution in basketball.

NOTE 2: Exceptions may be made for secondary school "alumni games" in vacation periods and all-star games as provided in Article VII, Section 3 (c).

Permission may be granted for participation in intra-camp basketball competition; permission may be granted for participation in inter-camp basketball competition, provided such competition takes place at one or the other of the two camps represented by the opposing teams.

Permission may be granted for participation in intra-playground basketball competition; permission may be granted for participation in inter-playground basketball competition provided such competition takes place at one or the other of the two playgrounds represented by the opposing teams.

NOTE 3: A student who has participated in unauthorized non-collegiate basketball shall be ineligible for varsity basketball only and not for other sports at his institution.

- (e) Unless the competition is in any post-season or summer baseball in which any member of the team receives pay as salary for playing, for living expenses, or for

any purpose other than regular employment at regular rates.

NOTE: A student applying for such permission (a) must file with the athletic director of the member institution concerned a certificate signed by the manager of the team on which he is to compete or perform stating that no member receives or is to receive pay as salary for living expenses, or for any other purpose.

Section 3. Permission for outside competition or athletic activity may be given at the discretion of the institution's appropriate athletic authority:

- (a) For employment or competition incident to such employment as the counsellor at a summer camp;
- (b) For employment as life guard, pool attendant or instructor, tennis club attendant or instructor, etc., provided that any instruction is a part of the total contract of employment and not on a lesson or hour basis;
- (c) For all star games, provided that the student has completed his last season of undergraduate eligibility in the sport concerned, and further that no violation of the amateur rule is involved. (This limitation may be waived — but only for the purpose of facilitating U. S. Olympic team tryouts — upon specific request and subject to written approval by the Commissioner.)

NOTE: Such competition shall not affect his eligibility in other sports.

NOTE: The Eligibility Committee may suspend the eligibility of an athlete for a definite or indefinite period for any infraction of the regulations of this article if the committee feels that the circumstances warrant such action. Such suspension may apply to all sports or only to the sport in which the infraction occurs as the committee may decide.

Officiating

Section 3 of Article III under rules of eligibility (EC-AC) states that a student shall forfeit his right to represent his institution hereafter in any intercollegiate competition if he receives pay for officiating in any athletic contests.

"This rule shall not be construed to apply to a student who, as a part time employee in his own institution is assigned to officiating in intramural contests as a part of his regular work for which he is paid at the usual rate for student employees in that institution."

Article 3 Section 1 of the constitution of NCAA says: "A student may officiate intramural athletic contests of his institution for compensation at the going rate for such employment without endangering his amateur status under this Section, but he may not officiate for pay or other compensation in high school contests or other outside athletic contests."

USE OF MEN'S ATHLETIC ASSOCIATION EQUIPMENT

1. Athletic clothing and protective equipment furnished students who are members of college athletic teams is loaned to students by the M.A.A. for wear only in intercollegiate team practices and contests. It should be worn only at these specific times and in the areas designated by coaches of the respective sports.

2. Immediately following the conclusion of a sports season, or as soon as a student discontinues reporting for regularly scheduled practices, either of his own violation or at the request of the coach, the equipment withdrawn by the student must be returned to the M.A.A. equipment room. Each student is financially responsible for the proper care and return of any and all of the items he checks out.

3. The equipment entrusted to the custody of the Men's Athletic Association, is purchased, cleaned, laundered and serviced with funds provided by student fees. No member of an athletic team squad has the right to obligate other students to provide him with personal clothing when he is not participating as a member of one of our college teams.

4. When athletic clothing and equipment is retained by a student who no longer is using it for the purpose for which it is intended, it means that additional equipment

must be procured to provide for students who are bona fide squad members.

5. For the students who fail to abide by the above regulations, a system of fines has been inaugurated. Each student who fails to return M.A.A. equipment which is held by him within 24 hours after it is due to be returned, will be required to pay a fine of \$1.00 for the first day's delinquency and an additional fine of 50c per day for each successive day until the equipment is returned or payment for the loaned equipment has been made.

In addition, students who wear M.A.A. clothing and/or equipment other than for actual intercollegiate practice or competition will be fined at the rate of \$1.00 per offense.

6. Students failing to pay the fines indicated herein, in the Office of the Director of Athletics, shall be reported to the Dean of the College for disciplinary action.
