State University of New York College at Cortland

Located atop one of the many hills in Central New York's "City of Seven Valleys," the State University of New York College at Cortland was founded in 1868 as the Cortland Normal School. Over the decades, the campus expanded and in 1941, by an act of the legislature and the Board of Regents, the institution officially became a college, providing four-year courses leading to a bachelor's degree. In 1948, the state legislature incorporated Cortland College into the new State University of New York.

Today, more than 5,600 undergraduate and 600 graduate students are pursuing degrees within the College's two academic divisions — Arts and Sciences and Professional Studies. Twenty-three departments with a faculty of more than 300 offer the Cortland State student body some 40 majors from which to choose, including liberal arts, elementary and secondary education, health and physical education, recreation education, speech education and speech and hearing handicapped education.

The College's main campus covers 191 acres and includes 30 major buildings. Thirteen of these structures are residence halls and provide on-campus housing for 2,600 students.

At Cortland State, athletics are viewed as having an important role in the educational mission of the College. During the fall, winter and spring seasons, Cortland State participates in 24 intercollegiate sports — 12 men's and 12 women's — in an attempt to provide a broad program of athletics which will meet the needs, interests and abilities of its students.

The stated objective of the College's athletic program is the development and welfare of the student. In the coaching of individual sports as well as in the direction of the overall athletic program, the College endeavors to provide a high calibre of professional leadership which is consistent with the goals of the institution.

Cortland State is particularly proud of its long tradition of intercollegiate athletics and its high standing in small college athletic circles. In support of this heritage, the College offers its student-athletes a number of outstanding indoor and outdoor facilities which are used for intercollegiate competition as well as educational and recreational purposes. The Park Center for Physical Education and Recreation, opened in 1973, features a main gymnasium with a seating capacity of 3,600, an Olympic-size swimming pool with gallery seating for 1,500, and an ice arena which can accommodate 2,500 spectators.

A SUNYAC WELCOME...

It is my pleasure on behalf of the State University of New York Athletic Conference to welcome you to the 21st Annual SUNYAC Swimming Championships.

This championship is indicative of the high caliber of performances that are demonstrated throughout the regular season in SUNYAC. The conference is proud of the SUNYAC swimming program which has evolved through the hard work of student athletes and coaches together with appropriate faculty and administrative support from the respective campuses. We believe that SUNYAC swimming represents the best in New York State!

The officers and members of SUNYAC extend best wishes to the athletes and teams competing for the championship crown. We are also grateful to the many fans who have supported us throughout the year and especially the loyal followers who have joined us here in Cortland for this tournament.

Dr. Patrick R. Damore
SUNYAC Commissioner

Harriet R. Holsten Pool "Home of the Red Dragons"

The Harriet R. Holsten Pool in Cortland State's impressive Park Center has been home to the Red Dragon swim teams since 1972. The pool is named in memory of the late Mrs. Holsten, a Cortland faculty member and an ardent supporter of the aquatics program at the College from 1929 until her retirement in 1972. Mrs. Holsten died in March, 1977.

An excellent facility, the Holsten Pool measures 45 feet by 50 meters and can be divided into three areas through the use of two movable bulkheads. Generally, the bulkheads are employed to allow separate areas for swimming and diving competition.

Six competitive lanes line the pool, while the diving area has a pair of one-meter boards and a pair of three-meter boards. Other features of the facility include an automatic timer scoreboard, underwater lighting, and a surface agitating system for diving competition.

The spectator gallery, with a capacity of 1,500, was constructed on a steep angle so that every viewer can see the entire pool. In addition to intercollegiate meets, the Holsten Pool is also used by local high schools, synchronized swim teams and for special exhibitions.
